## World Video Bible School Cards

The time in which we live has great challenges, but it also has great privileges and opportunities because of the technology available to us. For instance, years ago, it was impossible for individuals to attend a college in a different state without physically moving to the campus and attending classes. Now, an individual can register for classes in the comfort of his own home and even attend classes from the same location! What a wonderful time in which we live.

During the days of our Lord when He and others wanted to spread the good news, they had to physically go on journeys and traverse the land going city to city to preach the gospel. They walked, they rode animals, they sailed in boats, they even wrote letters which had to be hand carried to the reader's destination. Imagine the time and effort it took for the Lord, His apostles, and the early church to spread the gospel. Even with the primitive ways of communication, Paul when describing the outreach of the gospel said, *"If ye continue in the faith grounded and settled, and be not moved away from the hope of the gospel, which ye have heard, and which was preached to every creature which is under heaven; whereof I Paul am made a minister"* (Col. 1:23).

**LET'S GET  
ENERGIZED  
ABOUT  
EVANGELIZM!**

Today, we have another tool available to help individuals come to the knowledge of the truth. World Video Bible School has developed an online Bible study website that has been customized for individual congregations. Collinsville has its own web address for individuals to logon and register to study the Bible online on a personalized level. The logon information is on business cards, so it is just a matter of us, as a congregation, distributing those cards to family, friends, and neighbors. The following ways are suggestions in which we can distribute cards: leave at restaurants with the tip, leave at the doctor's or dentist's office, place some in distribution packets, mail to family and friends, leave on public announcement boards at the library or in grocery stores. Each of us probably have other ways we have used to leave Bible information. We want to use as many avenues as possible.

Our goal is to expose as many people to the gospel as we can through our efforts. The cards will be made available real soon and we hope and pray God will give

the increase as we plant and water.
